COMPANY PROFILE

UIES is actually known as United Industries & Estate Supplier. It started as a partnership business supplying general hardware to palm oil mills and estates in year 1978. It was incorporated into UIES Sdn. Bhd. in 22nd September 1982.

Our main activities then were more into supplying industrial engineering products like pumps, motors, gearboxes, valves, etc, to various types of industries. We were also very active in fire fighting projects and compressed air system. With the trust and support given by our clients, we gradually expanded our business. Staying on solely on engineering business was getting tougher and hence, we started to look for new business ventures and partners.

In 1994, UIES Engineering Sdn. Bhd. was formed to stay more focus in engineering products and we were appointed by many well known companies to represent them (their products) in our region.

U-Flex (M) Sdn. Bhd. was also formed in 1994 to specialise in producing mail boxes. We created many types of mail box design and today we are supplying to all over Malaysia, including Sabah and Sarawak.

In 2001, UIES Dagangan Sdn. Bhd. was formed to market automotive oil, air and fuel filters. We had a family related business specialised in manufacturing of automotive filters and UIES Dagangan was appointed as their marketing agent.

In 2001, Element Home Decor Sdn. Bhd. was also formed to venture into furniture business. We started off with retailing home & office furniture and gradually expanded to wholesale. Our products are mainly imported and we have clients all over Malaysia.

Our group adopt a working concept known as "5S System" introduced by the Japanese more than 20 years ago. It is a very practical concept that we management and staff will follow, guiding us to give the best quality and service to our customers.

We have a team of 22 persons in our group generating a turnover of about RM8 million annually. Most of our staff are long service employees and are very dedicated to the company. Their priceless experience has contributed to our success until today.
